Faulkner County  
American Rescue Plan / Coronavirus State and Local  
Fiscal Recovery Funds Application

Organizational information:

Name or organization: City of Guy Water  
Physical address: 405 Hwy 25 N, Greenbrier, AR 72058  
Mailing address: P.O. Box 12, Guy, AR 72061  
Email: gbhooten@yahoo.com  
Phone: 501-679-4585

CEO or Executive Director information:

Name: Mayor Sam Higdon  
Email: \_\_\_\_\_  
Phone: 501-679-4585  
Brief qualifications statement: \_\_\_\_\_

Financial Officer or Director information:

Name: Rita James  
Email: \_\_\_\_\_  
Phone: 501-679-4585  
Brief qualifications statement: Recorder / Treasurer

Who is the contact person for this application?

Name: Greg Hooten Water/Street Superintendent  
Email: gbhooten@yahoo.com  
Phone: 501-454-9195

Entity type or IRS registration: (501(c)3, LLC, sole proprietorship, etc.)

The City of Guy is a Second Class City with a population of 708.

Brief history of the organization:

The City of was founded in 1848. The Guy Water Department was built in the Early 1970's. It has grown in the past 50 Plus years to now serving 1,720 citizens of Faulkner County. Our watery services the City of Guy and the surrounding area. System

Financial information:

1. Have you received other state or federal grant funds in the past three years? If so, list the grant name, the organization from whom it was received, the amount of funding received, and the status of the grant expenditure.

No

2. Please Attach your organization's audits from 2019, 2020, and 2021 if available.

2019 and 2020 are enclosed in this application. 2021 has not yet been completed.

3. What is your organization's annual budget? Please attach a copy of your 2021, 2021, and 2022 budgets.

These are enclosed in this application.

4. The applicant certifies that any funds received through this Faulkner County granting program are fully subject to federal regulations and affirms that the funds will be properly spent in compliance with the American Rescue Plan Act of 2021. The applicant further affirms that financial controls are in place such that each expenditure under the grant will be fully documented and that such documentation will be open to the public and submitted to the County for audit. The applicant understands that all aspects of their use of the grant are open to the public and subject to the Freedom of Information Act.

About your request:

5. Please indicate under which category of eligibility under AR PA your organization is applying:

- Public Health and Economic Impacts – Responding to COVID-19
- Public Health and Economic Impacts – Responding to Negative Economic Impacts
- **Investments in Infrastructure – Water and Sewer**
- Investments in Infrastructure – Broadband

6. Briefly and clearly state how your project responds to the COVID-19 crisis:

During the highest infection rates of the COVID-19 virus, our Water Utility worked continuously to provide sanitary potable water to ensure our customers had plenty of water to bathe and wash to combat the virus.

7. Does your project have a county-wide impact? If so, please describe.

Our project will affect a large portion of the citizens of Northern Faulkner County by making water supply more reliable, therefore making our community cleaner and healthier.

8. Please describe your project including the following information (in any order): What will this project accomplish? How will those goals be measured? How do these goals relate to the goals of the American Rescue Plan Act (ARPA)?

This project will be replacing water infrastructure that has not been reliable for many years. Having these water lines upgraded will not only improve the lives of the citizens of Northern Faulkner County, it

will improve water service, fire protection, and ensure a better supply of potable water. The ARPA Act allows for the investment in water infrastructure.

9. Please attach a project budget. If the project includes construction or third-party services, please provide their estimates.

Enclosed in application

10. Are other funds part of the budget besides ARPA funds? If so, please list other sources of funding and a copy of their funding commitment, if available.

All expenses above ARPA funds will be paid for by Guy Water

11. Please describe the organization's financial management practices that will ensure audit compliance.

Mayor - oversees the works of the Guy Water Department.

Water Superintendent – designs, orders, manages, and ensures every part of the project gets completed.

Recorder/Treasurer – oversees the paying of all liabilities associated with the project.

All three of these persons ensure the accounting of the project is fully audit compliant.

12. What is the total dollar amount that is being requested from Faulkner County?

\$80,000.00

13. Have you received other ARPA or CARES Act funds? If so, how much have you received?

Yes, Guy Water has received \$81,416.21 in ARPA funds.

**Authorized Representative:** The signature indicates that I have been authorized to submit an application requesting funding for the proposed project and to the best of my knowledge and belief, all data contained in this application is true and correct. If the application is approved for funding, I am authorized to sign any applicable documents on behalf of the applicant.

Report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with Government Auditing Standards	13

## INDEPENDENT AUDITOR'S REPORT

To the City Council of Guy, Arkansas  
Water System of the City of Guy, Arkansas

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the Water System of the City of Guy, Arkansas (the System), as of and for the years ended December 31, 2019 and the related notes to the financial statements, as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Water System of the City of Guy, Arkansas, as of December 31, 2019, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### ***Required Supplementary Information***

Management has omitted the management's discussion and analysis and budgetary comparison that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### **Emphasis of Matter**

As discussed in Note 1, the financial statements present only the Water System of the City of Guy, Arkansas and do not purport to, and do not present fairly the financial position of the City of Guy, Arkansas, as of December 31, 2019, the changes in its financial position, or, where applicable, its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated June 16, 2020, on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control over financial reporting and compliance.

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2019

1) SUMMARY OF ORGANIZATION AND SIGNIFICANT ACCOUNTING

Organization

The Water System of the City of Guy, Arkansas (System), is a component unit of the City of Guy, Arkansas (City) which was established as an enterprise fund of the City to provide water services to residents of the City. These financial statements are intended to present the financial position, results of operations and cash flows of only that portion of the funds and account groups of the City that are attributable to transactions of the system, not the financial position of the City of Guy, Arkansas.

Basis of Accounting

The financial statements of the System are prepared in accordance with generally accepted accounting principles (GAAP). It applies all relevant Governmental Accounting Standards Board (GASB) pronouncements and applicable Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless they conflict with GASB pronouncements and apply all FASB pronouncements issued after November 30, 1989, except for those that conflict with or contradict GASB pronouncements.

The accounts of the System are accounted for in an enterprise fund, which is considered a proprietary fund type. Enterprise funds account for activities that are financed and operated in a manner similar to private business enterprises for which periodic determination of revenues, expenses and net income is desirable. The intent is that costs (expenses, including depreciation) of providing services to the general public on a continuing basis be financed or recovered primarily through user charges. Enterprise funds are reported using the economic resources measurement focus and the accrual basis of accounting.

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

The accounting objectives of this measurement focus is the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net assets.

Operating revenues and expenses are distinguished from other income (expense) items in the statement of revenues, expenses and changes in net position. Operating revenues and expenses generally result from providing services in connection with the principal ongoing operations. All revenues (expenses) not meeting this definition are reported as other nonoperating income (expenses), but remain a major component of the overall revenues and expenses of the System.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles. Net position and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions and regulatory requirements. Accordingly, net position of the System and changes therein are classified and reported as follows as required by GASB:

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2019

*Net investment in Capital Assets*- consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by outstanding balances of any bonds, mortgages, notes, or other borrowing that is attributable to the acquisition, construction, or improvement of those assets.

*Restricted* - consists of net position with constraints placed on the use either by external groups such as creditors, grantor, contributors, or laws or regulations of other governments or by law through constitutional provision or enabling legislation.

*Unrestricted* - consists of all other fund position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

When both restricted and unrestricted resources are available for use, it is the System's policy to use restricted resources first, and then unrestricted resources as they are needed.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income Taxes

The entity is exempt from income taxes under Section 501(c)(4) of the internal Revenue Code of 1986; therefore no provision for income taxes has been made in the accompanying financial statements.

Concentration of Credit Risk

Sales of water services are made on open account to customers located in the City of Guy, Arkansas and are collateralized to the extent of each customer's meter deposit.

Concentration of Custodial Risk

The System had deposits in multiple local banks. The Federal Deposit Insurance Corporation (FDIC) insures accounts at each institution up to \$250,000. The custodial risk is the risk that in the event of bank failure, the System's deposits may not be returned to the system. The System's deposit policy for custodial credit risk requires compliance with the provisions of the state law. State law requires collateralization of all deposits with federal depository insurance, bond and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities or the state of Arkansas. At December 31, 2019, all of the Department's cash balances of \$313,208 (held at two different financial institutions) were insured by the FDIC.

Concentration of Vendor Risk

Purchases for the year ended December 31, 2019 include amounts from a major supplier that accounted for 100% of the water purchased by the System. Management believes no significant risk is present under this arrangement.

Cash and Cash Equivalents

Cash and Cash Equivalents include all monies in banks and highly liquid investments with maturity dates of less than three months.

Accounts Receivable

Accounts receivable consist of amounts due for water sales and various miscellaneous charges. Meter deposits are considered to adequately cover past due accounts, therefore no allowance for doubtful accounts has been recorded. There was no bad debt expense for the year ended December 31, 2019.

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
 NOTES TO THE FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED DECEMBER 31, 2019

Property and Equipment

Acquisitions of property and equipment in excess of \$1,000 and a useful life of greater than one year are capitalized. Property and equipment are carried at cost or, if donated, at the approximate fair value at the date of donation. Interest expenditures incurred on construction projects are capitalized as a cost of construction. Depreciation is computed using primarily the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Useful Life</u>
Water System	9-40 years
Buildings and Improvements	15-40 years
Equipment	3-10 years
Construction in Progress	Depreciable upon completion
Land	Indefinite

Depreciation expense was \$52,983 for the year ended December 31, 2019.

Compensated Absences

The System provides all eligible employees vacation benefits. The System has accrued a liability for vacation pay, which has been earned but not taken by employees.

Customer Deposits

As security for payment of bills, the System requires a deposit from customers. No interest is paid on such deposits.

Revenue Recognition

The System's revenue is derived primarily from water. Revenue is recognized on the accrual basis and is recorded as services are provided. Operating revenues result from providing services in connections with the principal ongoing operations. Non-operating revenues represent all other revenue not meeting this definition.

Grant Revenue

Resources from capital grants are reported as restricted support. When a grant restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net position and reported in the statement of activities as net assets released from restrictions.

Sales Taxes

Sales taxes charged to the System's customers are recorded as revenue when received. An expense is then recorded when these amounts are remitted to the appropriate taxing authority. Sales tax expense is a component of operating expenses.

Subsequent Events

Management has evaluated subsequent events through June 16, 2020, the date which the financial statements were available to be issued.

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2019

2) RESTRICTED ASSETS

Restricted assets consists of customer meter deposits, a debt service reserve required by the USDA, and a depreciation reserve required by Arkansas Natural Resource Commission.

Restricted assets are as follows:

	2019
Customer meter deposits	\$ 67,907
Debt Service Reserve-USDA	3,720
Depreciation Reserve-ANRC	76,895
	\$ 148,522

The loan agreement with USDA requires a debt service reserve to be funded at a rate of \$310 per month for a period of 40 years. The loan agreements with ANRC require the System to fund a depreciation reserve account in the amount of \$200,000 to be accumulated at the rate of \$240 per month. Also the System must maintain a meter construction depreciation account that must have a balance of 3% of gross revenue until the balance reaches \$50,000. Total required reserves for loans totals \$80,615 for the year ended December 31, 2019.

3) PROPERTY AND EQUIPMENT

At December 31, 2019, the carrying value and accumulated depreciation of property and equipment are as follows:

	12/31/2018	Additions	Disposals	12/31/2019
Water system	\$ 1,748,750	\$ 264,751	\$ (17,782)	\$ 1,995,719
Buildings and Improvements	94,432	-	(1,200)	93,232
Equipment	114,679	83,332	(44,596)	153,415
Land	11,662	-	-	11,662
	1,969,523	348,083	(63,578)	2,254,028
Accumulated depreciation	(811,279)	(52,983)	44,157	(820,105)
Net property and equipment	\$ 1,158,244	\$ 295,100	\$ (19,421)	\$ 1,433,923

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2019

4) LONG-TERM DEBT

Long-term debt consists of the following:	<u>2018</u>	<u>Increase (Decrease)</u>	<u>2019</u>	<u>Due Within One Year</u>
Note payable to USDA Rural Dev. Bearing interest at 5.00% per annum. Payable in monthly installments of \$310, including interest, through December 2021. The note is secured by water sales revenue and system assets.	\$ 10,028	\$ (3,294)	\$ 6,734	\$ 3,462
Note payable to AR Natural Resource Comm. bearing Interest at 5.00% per annum. Payable in semi-annual installments of \$36,189, including interest, through December 2029. The note is secured by water sales revenue and system assets.	585,730	(43,630)	542,100	45,839
Note payable to AR Natural Resource Comm. bearing Interest at .50% per annum. Payable in annual installments of \$26,823, including interest, through June 2029. The note is secured by water sales revenue and system assets.	-	261,000	261,000	25,518
Note payable to AR Natural Resource Comm. bearing Interest at 4.50% per annum. Payable in semi-annual installments of \$5,492, including interest, through December 2025. The note is secured by water sales revenue and system assets.	64,666	(8,165)	56,501	8,536
Total long-term debt	\$ 660,424	\$ 205,911	\$ 866,335	\$ 83,355

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
 NOTES TO THE FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED DECEMBER 31, 2019

5) CHANGES IN NET POSITION

The changes in net position are as follows:

	Net in Capital Assets	Unrestricted	Restricted	Total
Net Position at December 31, 2018	\$ 497,820	\$ 192,701	\$ 58,751	\$ 749,272
Profit	-	91,427	-	91,427
Transfers	69,768	(91,632)	21,864	-
Net Position at December 31, 2019	<u>\$ 567,588</u>	<u>\$ 192,496</u>	<u>\$ 80,615</u>	<u>\$ 840,699</u>

6) INCOME TAXES

Generally accepted accounting principles require tax effects from uncertain tax position to be recognized in financial statements only if the position is more likely than not to be sustained if the position were to be challenged by a taxing authority. The assessment of the tax position is based solely on the technical merits of the position, without regard to the likelihood that the tax position may be challenged. If an uncertain tax position meets the more-likely-than-not-threshold, the largest amount of tax benefit that is greater than 50% likely to be recognized upon ultimate settlement with the taxing authority is recorded. The System's primary tax positions relate to its status as a non-profit entity exempt from income taxes and classification of activities related to its exempt purpose. Management has evaluated the tax positions reflected in the System's tax filings and does not believe that any material uncertain tax positions exist.

SUPPLEMENTARY INFORMATION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the City Council  
City of Guy, Arkansas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Water System of the City of Guy, Arkansas, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the System's basic financial statements and have issued our report thereon dated June 16, 2020.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the System's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we do not express an opinion on the effectiveness of the System's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT

To the City Council of Guy, Arkansas  
Water System of the City of Guy, Arkansas

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the Water System of the City of Guy, Arkansas (the System), as of and for the years ended December 31, 2020 and the related notes to the financial statements, as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Water System of the City of Guy, Arkansas, as of December 31, 2020, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Management has omitted the management's discussion and analysis and budgetary comparison that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### **Emphasis of Matter**

As discussed in Note 1, the financial statements present only the Water System of the City of Guy, Arkansas and do not purport to, and do not present fairly the financial position of the City of Guy, Arkansas, as of December 31, 2020, the changes in its financial position, or, where applicable, its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated September 10, 2021, on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control over financial reporting and compliance.

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2020

1) SUMMARY OF ORGANIZATION AND SIGNIFICANT ACCOUNTING

Organization

The Water System of the City of Guy, Arkansas (System), is a component unit of the City of Guy, Arkansas (City) which was established as an enterprise fund of the City to provide water services to residents of the City. These financial statements are intended to present the financial position, results of operations and cash flows of only that portion of the funds and account groups of the City that are attributable to transactions of the system, not the financial position of the City of Guy, Arkansas.

Basis of Accounting

The financial statements of the System are prepared in accordance with generally accepted accounting principles (GAAP). It applies all relevant Governmental Accounting Standards Board (GASB) pronouncements and applicable Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless they conflict with GASB pronouncements and apply all FASB pronouncements issued after November 30, 1989, except for those that conflict with or contradict GASB pronouncements.

The accounts of the System are accounted for in an enterprise fund, which is considered a proprietary fund type. Enterprise funds account for activities that are financed and operated in a manner similar to private business enterprises for which periodic determination of revenues, expenses and net income is desirable. The intent is that costs (expenses, including depreciation) of providing services to the general public on a continuing basis be financed or recovered primarily through user charges. Enterprise funds are reported using the economic resources measurement focus and the accrual basis of accounting.

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

The accounting objectives of this measurement focus is the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net assets.

Operating revenues and expenses are distinguished from other income (expense) items in the statement of revenues, expenses and changes in net position. Operating revenues and expenses generally result from providing services in connection with the principal ongoing operations. All revenues (expenses) not meeting this definition are reported as other nonoperating income (expenses), but remain a major component of the overall revenues and expenses of the System.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles. Net position and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions and regulatory requirements. Accordingly, net position of the System and changes therein are classified and reported as follows as required by GASB:

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2020

*Net investment in Capital Assets*- consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by outstanding balances of any bonds, mortgages, notes, or other borrowing that is attributable to the acquisition, construction, or improvement of those assets.

*Restricted*- consists of net position with constraints placed on the use either by external groups such as creditors, grantor, contributors, or laws or regulations of other governments or by law through constitutional provision or enabling legislation.

*Unrestricted*- consists of all other fund position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

When both restricted and unrestricted resources are available for use, it is the System's policy to use restricted resources first, and then unrestricted resources as they are needed.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income Taxes

The entity is exempt from income taxes under Section 501(c)(4) of the internal Revenue Code of 1986; therefore no provision for income taxes has been made in the accompanying financial statements.

Concentration of Credit Risk

Sales of water services are made on open account to customers located in the City of Guy, Arkansas and are collateralized to the extent of each customer's meter deposit.

Concentration of Custodial Risk

The System had deposits in multiple local banks. The Federal Deposit Insurance Corporation (FDIC) insures accounts at each institution up to \$250,000. The custodial risk is the risk that in the event of bank failure, the System's deposits may not be returned to the system. The System's deposit policy for custodial credit risk requires compliance with the provisions of the state law. State law requires collateralization of all deposits with federal depository insurance, bond and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities or the state of Arkansas. At December 31, 2020, all of the Department's cash balances of \$356,997 (held at two different financial institutions) that were insured by the FDIC.

Concentration of Vendor Risk

Purchases for the year ended December 31, 2020 include amounts from a major supplier that accounted for 100% of the water purchased by the System. Management believes no significant risk is present under this arrangement.

Cash and Cash Equivalents

Cash and Cash Equivalents include all monies in banks and highly liquid investments with maturity dates of less than three months.

Accounts Receivable

Accounts receivable consist of amounts due for water sales and various miscellaneous charges. Meter deposits are considered to adequately cover past due accounts, therefore no allowance for doubtful accounts has been recorded. Bad debt expense was \$2,145 for the year ended December 31, 2020.

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
 NOTES TO THE FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED DECEMBER 31, 2020

Property and Equipment

Acquisitions of property and equipment in excess of \$1,000 and a useful life of greater than one year are capitalized. Property and equipment are carried at cost or, if donated, at the approximate fair value at the date of donation. Interest expenditures incurred on construction projects are capitalized as a cost of construction. Depreciation is computed using primarily the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Useful Life</u>
Water System	9-40 years
Buildings and Improvements	15-40 years
Equipment	3-10 years
Construction in Progress	Depreciable upon completion
Land	Indefinite

Depreciation expense was \$62,487 for the year ended December 31, 2020.

Compensated Abscences

The System provides all eligible employees vacation benefits. The System has accrued a liability for vacation pay, which has been earned but not taken by employees.

Customer Deposits

As security for payment of bills, the System requires a deposit from customers. No interest is paid on such deposits.

Revenue Recognition

The System's revenue is derived primarily from water. Revenue is recognized on the accrual basis and is recorded as services are provided. Operating revenues result from providing services in connections with the principal ongoing operations. Non-operating revenues represent all other revenue not meeting this definition. Accounts receivable and revenues reported on the System's financial statements include an estimate of charges for services provided but unbilled at year end.

Grant Revenue

Resources from capital grants are reported as restricted support. When a grant restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net position and reported in the statement of activities as net assets released from restrictions.

Sales Taxes

Sales taxes charged to the System's customers are recorded as revenue when received. An expense is then recorded when these amounts are remitted to the appropriate taxing authority. Sales tax expense is a component of operating expenses.

Fair Value of Financial Instruments

The estimated fair values of the System's short-term financial instruments, including receivables and payables arising in the ordinary course of business, approximate their individual carrying amounts due to the relatively short period of time between their origination and expected realization.

Subsequent Events

Management has evaluated subsequent events through September 10, 2021, the date which the financial statements were available to be issued.

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
 NOTES TO THE FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED DECEMBER 31, 2020

2) RESTRICTED ASSETS

Restricted assets consists of customer meter deposits, a debt service reserve required by the USDA, and a depreciation reserve required by Arkansas Natural Resource Commission.

Restricted assets are as follows:

	2020
Customer meter deposits	\$ 69,513
Debt Service Reserve-USDA	3,270
Depreciation Reserve-ANRC	90,462
	\$ 163,245

The loan agreement with USDA requires a debt service reserve to be funded at a rate of \$310 per month for a period of 40 years. The loan agreements with ANRC require the System to fund a depreciation reserve account in the amount of \$200,000 to be accumulated at the rate of \$240 per month. Also the System must maintain a meter construction depreciation account that must have a balance of 3% of gross revenue until the balance reaches \$50,000. Total required reserves for loans totals \$93,732 for the year ended December 31, 2020.

3) PROPERTY AND EQUIPMENT

At December 31, 2020, the carrying value and accumulated depreciation of property and equipment are as follows:

	12/31/2019	Additions	Disposals	12/31/2020
Water system	\$ 1,995,719	\$ 16,013	\$ -	\$ 2,011,732
Buildings and Improvements	93,232	-	-	93,232
Equipment	153,415	1,250	-	154,665
Land	11,662	8,076	-	19,738
	2,254,028	25,339	-	2,279,367
Accumulated depreciation	(820,105)	(62,487)	-	(882,592)
Net property and equipment	\$ 1,433,923	\$ (37,148)	\$ -	\$ 1,396,775

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2020

4) LONG-TERM DEBT

Long-term debt consists of the following:

	2019	Increase (Decrease)	2020	Due Within One Year
Note payable to USDA Rural Dev. Bearing interest at 5.00% per annum. Payable in monthly installments of \$310, including interest, through December 2021. The note is secured by water sales revenue and system assets.	\$ 6,734	\$ (3,462)	\$ 3,272	\$ 3,272
Note payable to AR Natural Resource Comm. bearing Interest at 5.00% per annum. Payable in semi-annual installments of \$36,189, including interest, through December 2029. The note is secured by water sales revenue and system assets.	542,100	(45,839)	496,261	48,160
Note payable to AR Natural Resource Comm. bearing Interest at .50% per annum. Payable in annual installments of \$26,823, including interest, through June 2029. The note is secured by water sales revenue and system assets.	261,000	(25,518)	235,482	25,645
Note payable to AR Natural Resource Comm. bearing Interest at 4.50% per annum. Payable in semi-annual installments of \$5,492, including interest, through December 2025. The note is secured by water sales revenue and system assets.	56,501	(8,536)	47,965	8,925
Total long-term debt	\$ 866,335	\$ (83,355)	\$ 782,980	\$ 86,002
Less current portion	(83,355)	(2,647)	(86,002)	
Long-term debt, net of current portion	<u>\$ 782,980</u>	<u>\$ (86,002)</u>	<u>\$ 696,978</u>	

Scheduled retirements of long-term debt are as follows:

For the year ended December 31:	Principal	Interest
2021	86,002	27,536
2022	85,703	24,482
2023	88,818	21,367
2024	92,082	18,103
2025	94,593	14,682
2026-2030	335,782	24,879
	<u>\$ 782,980</u>	<u>\$ 131,049</u>

WATER SYSTEM OF THE CITY OF GUY, ARKANSAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2020

5) CHANGES IN NET POSITION

The changes in net position are as follows:

	Net in Capital Assets	Unrestricted	Restricted	Total
Net Position at December 31, 2019	\$ 567,588	\$ 192,496	\$ 80,615	\$ 840,699
Prior period adjustment (Note 7)	-	12,686	-	12,686
Profit	-	96,147	-	96,147
Transfers	46,207	(59,324)	13,117	-
Net Position at December 31, 2020	<u>\$ 613,795</u>	<u>\$ 242,005</u>	<u>\$ 93,732</u>	<u>\$ 949,532</u>

6) INCOME TAXES

Generally accepted accounting principles require tax effects from uncertain tax position to be recognized in financial statements only if the position is more likely than not to be sustained if the position were to be challenged by a taxing authority. The assessment of the tax position is based solely on the technical merits of the position, without regard to the likelihood that the tax position may be challenged. If an uncertain tax position meets the more-likely-than-not-threshold, the largest amount of tax benefit that is greater than 50% likely to be recognized upon ultimate settlement with the taxing authority is recorded. The System's primary tax positions relate to its status as a non-profit entity exempt from income taxes and classification of activities related to its exempt purpose. Management has evaluated the tax positions reflected in the System's tax filings and does not believe that any material uncertain tax positions exist.

7) PRIOR PERIOD ADJUSTMENT

The System's unrestricted net assets were understated by \$12,686 in the prior year and as a result the following was posted. An adjustment was posted as an increase to unrestricted net assets of \$12,686 as of December 31, 2020 for unbilled receivables from water revenue.

To the City Council  
City of Guy, Arkansas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Water System of the City of Guy, Arkansas, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the System's basic financial statements and have issued our report thereon dated September 10, 2021.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the System's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we do not express an opinion on the effectiveness of the System's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*Turner, Williams and Associates, P.A.*

Financial information:

1. Have you received other state or federal grant funds in the past three years? If so, list the grant name, the organization from whom it was received, the amount of funding received, and the status of the grant expenditure.

No

2. Please Attach your organization's audits from 2019, 2020, and 2021 if available.

2019 and 2020 are enclosed in this application. 2021 has not yet been completed.

3. What is your organization's annual budget? Please attach a copy of your 2021, 2021, and 2022 budgets.

These are enclosed in this application.

4. The applicant certifies that any funds received through this Faulkner County granting program are fully subject to federal regulations and affirms that the funds will be properly spent in compliance with the American Rescue Plan Act of 2021. The applicant further affirms that financial controls are in place such that each expenditure under the grant will be fully documented and that such documentation will be open to the public and submitted to the County for audit. The applicant understands that all aspects of their use of the grant are open to the public and subject to the Freedom of Information Act.

About your request:

5. Please indicate under which category of eligibility under AR PA your organization is applying:

- Public Health and Economic Impacts – Responding to COVID-19
- Public Health and Economic Impacts – Responding to Negative Economic Impacts
- **Investments in Infrastructure – Water and Sewer**
- Investments in Infrastructure – Broadband

6. Briefly and clearly state how your project responds to the COVID-19 crisis:

During the highest infection rates of the COVID-19 virus, our Water Utility worked continuously to provide sanitary potable water to ensure our customers had plenty of water to bathe and wash to combat the virus.

7. Does your project have a county-wide impact? If so, please describe.

Our project will affect a large portion of the citizens of Northern Faulkner County by making water supply more reliable, therefore making our community cleaner and healthier.

8. Please describe your project including the following information (in any order): What will this project accomplish? How will those goals be measured? How do these goals relate to the goals of the American Rescue Plan Act (ARPA)?

This project will be replacing water infrastructure that has not been reliable for many years. Having these water lines upgraded will not only improve the lives of the citizens of Northern Faulkner County, it

will improve water service, fire protection, and ensure a better supply of potable water. The ARPA Act allows for the investment in water infrastructure.

9. Please attach a project budget. If the project includes construction or third-party services, please provide their estimates.

Enclosed in application

10. Are other funds part of the budget besides ARPA funds? If so, please list other sources of funding and a copy of their funding commitment, if available.

All expenses above ARPA funds will be paid for by Guy Water

11. Please describe the organization's financial management practices that will ensure audit compliance.

Mayor - oversees the works of the Guy Water Department.

Water Superintendent - designs, orders, manages, and ensures every part of the project gets completed.

Recorder/Treasurer - oversees the paying of all liabilities associated with the project.

All three of these persons ensure the accounting of the project is fully audit compliant.

12. What is the total dollar amount that is being requested from Faulkner County?

\$80,000.00

13. Have you received other ARPA or CARES Act funds? If so, how much have you received?

Yes, Guy Water has received \$81,416.21 in ARPA funds.
